

ENVIRONMENTAL POLICY STATEMENT

The Reno-Tahoe Airport Authority (RTAA), owner and operator of the Reno-Tahoe International Airport, believes that a healthy natural environment plays a crucial role in the strength of our economy and our quality of life and is essential for the sustainability of the aviation industry. In order to meet the demands of sustainable aviation development and to protect the natural environment, the RTAA's environmental programs endeavor to improve environmental practices, support pollution reduction and prevention, and foster environmental stewardship. This commitment goes beyond compliance with the law and encompasses the integration of sound environmental practices into our daily decisions and activities. We have pursued and will continue to pursue a course of responsible environmental stewardship. This is based on the following objectives:

Continual Improvement: The RTAA is committed to maintaining an effective environmental management system and attaining a broader understanding of the environmental impacts resulting from operations at the RTIA. In addition, the RTAA is committed to continual improvement, both in our environmental performance and towards more environmentally sustainable aviation business practices.

Pollution Prevention: The RTAA is committed to the conservation of natural resources by encouraging energy conservation, waste reduction, and recycling in its business practices and operating procedures. Additionally, the RTAA will continually measure, monitor, report, and improve the environmental performance defined by specific environmental objectives and targets to control any adverse environmental impact and to pursue pollution reduction and prevention opportunities.

Regulatory Compliance: The RTAA is committed to meeting or exceeding relevant environmental regulations, as well as, fostering environmental stewardship and sustainable development to better serve the community and the aviation industry. Additionally, afford regular operation-specific environmental performance reviews and assessments, and develop plans to address actual or potential noncompliance situations.

Compliance with this Environmental Policy is the responsibility of every member of the RTAA in accordance with his or her role and responsibilities in the organization.
