Subject: Proposed Airport Layout Plan Change for the Army National Guard's UH-60 Hangar at Reno-Stead Airport (RTS), Reno, Nevada – Categorical Exclusion Adoption and Re-Evaluation

Dear Mr. Welty:

The Federal Aviation Administration (FAA) reviewed the environmental and planning documents that your organization submitted in advance of an Airport Layout Plan (ALP) change involving a proposed Army National Guard hangar project at Reno-Stead Airport in Reno, Nevada. I've enclosed the FAA's adoption and written re-evaluation of the Army National Guard's categorical exclusion for the UH-60 Storage Hangar.

You must post the enclosed document on your organization's public-facing website for at least 30 days to meet the requirements at 40 CFR 1506.3(d)(2). I would appreciate receiving a screen shot of the posting for my records.

I'm notifying your organization that the FAA completed the environmental review process for this proposed ALP change; this isn't a notice of final project approval or funding availability.

If you have ALP-related questions, call Planner Robin Sobotta at (602) 792-1070 or [robin.r.sobotta@faa.gov](mailto:robin.r.sobotta@faa.gov); if you have environmental review questions, please contact me at (602) 792-1066 or [matthew.h.bilsbarrow@faa.gov](mailto:matthew.h.bilsbarrow@faa.gov).

Sincerely,
